Animal Facts

Check out these fun animal facts for kids and learn more about cats, dogs, insects, birds, whales, horses, sharks and much more. Children will love the cool animal related facts.

Space Facts

Be wowed by these fun space facts for kids and find out more about astronomy, the Moon, our Sun, the Milky Way galaxy, comets, asteroids and much more.

Planet Facts

Read some amazing facts about the planets in our solar system. Learn about gas giants such as Jupiter and Saturn as well information about closer planets like Venus and Mars.

Technology Facts

Technology plays a major role in our everyday lives. Find interesting facts related to computers, cell phones, video games, television, money, robots and the Internet.

Human Body Facts

Check out these fun human body facts for kids and find out more about bones, skeletons, eyes, blood, muscles, the brain, heart and other amazing parts of the human body.

Earth Facts

Enjoy these fun planet Earth facts for kids and find out more about volcanoes, earthquakes, minerals, gas and more. Children will be fascinated by the range of Earth related facts.

Chemistry Facts

Be amazed by these fun chemistry facts for kids while learning about atoms, gases, liquids, solids, chemicals and experiments. Children will love the weird chemistry related facts.

Food Facts

Check out our fun food facts and learn more about what you eat. Read interesting info related to the fast food industry, nutrition, fruit, vegetables, popular foods and much more.

Water Facts

Read our range of amazing water facts and discover why water is so important to life on Earth. Learn about ice, steam, rivers, drinking water, pollution, the water cycle and much more.

Famous Scientist Facts

Learn about scientists who helped change the way we think about chemistry, biology, physics and our world in general. Read facts about Einstein, Darwin, Newton, Pasteur and more.

Weather Facts

Enjoy these cool weather facts that will teach you more about exciting weather and climate related topics such as lightning,

Find out where sound comes from, what the speed of sound is, how sound relates to music, interesting properties of sound and snow, record temperatures, tornadoes and tropical cyclones.

much more with our range of fun sound facts.

Electricity Facts

Check out these shocking electricity facts that cover circuits, solar power generation, electric eels, wind power, positive and negative charges, currents, volts and everything in between.

Physics Facts

Physics is an important science subject that helps us understand the world we live in. Enjoy learning about topics such as energy, force and magnets with our cool physics facts.

Health Facts

Learn about important health topics that affect the lives of people around the world. Read facts about allergies, obesity, exercise, disease, cancer, medicine, clean water and more.

Biology Facts

How much do you know about biology? Why not learn some new facts related to cells, DNA, cloning, natural selection, fungus, ecology, bacteria, viruses and other biology related topics.

Fire Facts

What does fire need in order to burn? What do we use fire for? How hot is a candle flame? Find out the answers to these questions and much more with our range of fire facts.

Nuclear Facts

Learn a range of interesting nuclear facts including information related to nuclear power, radioactive waste, nuclear weapons

Science Careers

Read about different types of scientists with our facts and information related to science careers. Find out what kind of jobs you can get after studying science at school and university.

Forensic Science Facts

Find out how scientists use forensic science to help solve crime and other mysteries with our range of facts and information related to forensic science.

Plant Facts

Be amazed by the world of plants. Learn about the venus flytrap, trees, flowers, poison ivy, photosynthesis, shrubs and herbs as well as other interesting processes and strange species.

Light Facts

Illuminate the world around you by reading our amazing light facts with fun information about the visible spectrum, sunlight, ultraviolet light, infrared light and electromagnetic radiation.

Funny Facts

Laugh at these funny science facts for kids. Children will love the cool, crazy, strange, funny, weird, odd and bizarre information as well as did you know facts and other amusing info.

Metal Facts

Read fascinating facts about metals such as gold, silver, copper, aluminum and iron. Learn what alloys are, why steel is important for making tools and what metals are most likely to explode!

Energy Facts

Harness the power of energy with our fun facts that will teach you about kinetic energy, elastic potential energy, joules, calories, motion, nuclear energy, geothermal energy and more.

Gravity Facts

Check out these cool gravity facts that help explain more about g-forces, the acceleration of objects, mass, planetary orbits and how the laws of gravity relate to our lives here on Earth.

Flight Facts

Enjoy a range or awesome facts related to flight. Learn about different types of aircraft, how planes fly, when the Wright Brothers first took off, which animals can fly and much more.

Magnet Facts

Learn about magnets with a range of fun facts for kids. Understand what magnetism is, how magnetic fields work, which metals are magnetic and lots more.

Photography Facts

Explore the world of photography with out range of fun facts. Learn basic concepts, easy definitions, how cameras work and much more.

Vehicle Facts

Read about all kinds of different vehicles with our interesting facts related to trains, planes, submarines, cars, boats, helicopters, bicycles and hot air balloons.

Time Facts

Time is an important part of life but it can be a difficult thing to explain. Have fun learning about this interesting topic with our range of time facts and information.

Country Facts

If you've ever wanted to know something about another country then take a look at our fun facts from Australia to Egypt and everywhere in between.

Sports Science Facts

Learn about sports science with our cool facts. Understand how sports equipment, technology, physics, exercise and injuries relate to sports such as golf, tennis and baseball.

Take a look at our fun engineering facts for kids. Enjoy trivia related to bridges, tunnels, dams and buildings while learning about civil, mechanical, genetic and other types of engineering.

Nature Facts

Check out a range of awesome nature facts. Learn about giant flowers, dangerous plants, amazing animals, oceans, volcanoes, recycling, global warming and the natural environment.

Dinosaur Facts

Learn about dinosaurs and fossils with our range of fun facts. Read about the Velociraptor, Tyrannosaurus rex, Triceratops, Spinosaurus, Diplodocus, Stegosaurus and more.

Math Facts

Have fun learning about math with these awesome facts for kids. Enjoy trivia related to amazing numbers, crazy shapes, golden ratios and much more.

Recycling Facts

Recycling plays an important role in helping to reduce waste and look after our environment. Find out why we do it and how it works with our interesting recycling facts.

Top Ten Lists

Enjoy our awesome top ten science lists for kids. Who are the tallest people in the world? What are the closest stars to Earth? How about the tallest buildings and longest rivers? Find out now!

More Facts

Find more fun science facts on topics such as plants, sound, physics and scientific processes. Kids will enjoy the interesting information and science related facts.
